DETAILED ACTION

Claims 1-22 have been canceled. Claims 23-51 are pending. Drawings, 9 sheets, were filed with the application. No foreign priority is claimed.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 23-35, drawn to compounds and methods of use, classified in class 514, subclass various.
- II. Claims 36-51, drawn to compounds, compositions, methods of use, classified in class 549, subclass 263+.

The inventions are distinct, each from the other because of the following reasons:

Each of Groups I and II are distinct and independent, one from the other on the basis of structure defined in the claimed inventions as directed compounds of different structure respectively. Absent factual evidence to the contrary, each is a different chemical compound.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the

currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
